DETAILED ACTION

Reasons for Allowance

- The allowed claims are 1 ,2 ,4-8, 10, 11, and 13.
- The following is an examiner's statement of reasons for allowance: Applicants arguments were convincing in pointing out that the prior art does not disclose the claim as a whole including the limitation of molding mass not completely covering the entire track element, nor does the examiner know of any permissible motivation to combine the prior art. Prior to concluding the above allowable subject matter, the examiner considered that the molding mass did not cover the *entire* track element in the area were the solder joints were adjacent the track element (that is, the solder is between the track element and the molding mass). However, the claimed language is often seen applied to a blanket covering ones feet while in bed (i.e. even if the sheet (solder) is between the blanket (molding mass) and the feet (track element), the blanket is still considered to cover the feet) just as Yabe's molding mass is seen to cover the entire track element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- Effective May 1, 2003, the United States Patent and Trademark Office has a new Commissioner for Patents address. Correspondence in patent related matters must now be addressed to:

**Commissioner for Patents
